BENEFITS

Composite material: natural look and maintenance free

WPC (Wood Polymer Composite) combines the natural look & warm feel of wood with the low maintenance & rigidity of plastic. The weather resistant product does not require painting or varnishing. WPC is extremely durable, will not rot nor splinter and is a perfect alternative for tropical hard wood.

Large range

The composite boards come in 3 different designs with attractive & fashionable colors. A range of single & double swing gates with Composite infill is available as well.

Easy installation

- The composite boards with tooth/groove principle are installed with the HoriZen Basic post.
- The fence height can be adapted by putting less boards on top of each other, the boards can easily be cut to adapt de width of the panel.
- HoriZen Clamp posts are used in combination with Glass or Laminate panels.

Endless personalization

Customize your fence by

- combining different colors in one fence
- mounting the boards vertically (adaptor profile)
- combining composite boards with the HoriZen glass or Laminate panels
- integrating the HoriZen decorative boards or by adding a LED light bar.

Applications

Functionalities

HoriZen composite boards assortment

HoriZen composite Classic

- Extruded WPC boards, with tooth-groove principle
- Available in 4 colors : sand, almond, anthracite & grey
- Board height : 150 mm, board length : 1780 mm

- Co-extruded WPC boards, with tooth-groove principle.
- Available in 2 colors : brown & grey
- Board height : 150 mm, board length : 1780 mm
- Both sides of the boards are plain.
- 1 pack contains 12 boards (= fence panel 1800 x 1800 mm) & the aluminum top & bottom profiles

HoriZen composite Platinum XL

- Co-extruded WPC boards, with tooth-groove principle.
- Available in 2 board colors : brown & grey (alu frame in anthracite or silver)
- Board height : 300 mm, board length : 1780 mm
- Both sides of the boards are plain.
- 1 pack contains 6 boards (= fence panel 1800 x 1800 mm) & the aluminum top (for aesthetic finishing) & bottom profile (for rigidity)

Posts & fixings

HoriZen Basic post

The composite board panels are installed with the Basic post. This aluminum extruded post is available in 3 different heights and in 2 different versions:

- posts for installation in straight line
- corner posts (for installation in corner 75° - 180°)

HoriZen Clamp post

When the composite board panels are combined with Glass or Laminate panels, the specific Clamp post is used. This aluminum extruded post is available in 2 different lengths and 2 different versions:

- posts for installation in straight line
- corner posts (for installation in corner 90°)

Technical information

- WPC (Wood Polymer Composite) extruded boards
- HoriZen composite Platinum: A special coating gives a premium look and extra protection against stains from water and dirt.
- Made with PEFC certified wood
- 100% recyclable
- 10 year guarantee (see our quality policy)
- the fence width can be altered easily, by cutting the boards. The fence height can be lowerd by using shorter posts or by cutting the post and less boards
- the Classic, XL & Platinum (XL) boards and the aluminium top & bottom profiles are individually available, in all colors.
- extra long Basic posts of 2980 mm are available for installation on slopes.
