

Decofor® swing gate

Gates

The Decofor single and double swing gates are a perfect combination with the decorative Decofor Arco and Recto panel fences.

Product detail

BENEFITS

- The design is in perfect harmony with the Decofor panels Arco and Recto.
- Frame, infill and post system are of a very rigid construction.
- The limited accessories allow a quick installation.
- Decofor gates receive the best anti-corrosion coating available: the gates receive a protective coating, then a polyester coating that reaches the highest norms in the field of gloss, hardness and adhesion.

Frame

- The gate frame is made out of rectangular steel tube with a profile of 60 x 40 mm.
- Adjustable hinges allow the wings to be opened 180°.
- Lock systems composed of a lock slot, a counter lock, integrated lock with cylinder and handle.
- The double gates are supplied with a ground bolt to be anchored into the central floor plate.

Posts

- Profile :
- single gates : 80 x 80 x 3 mm
 - double gates: 100 x 100 x 3 mm

They are adapted to the different heights of fences and completed with a metal ball cap. They are supplied with inserts for the fixation of the fencing panels.

Panel infill frame

Decofor Arco panel with mesh of 200 x 65 mm is welded into the gate frame. Gates with Decofor Recto on request.

Accessoires

For wall fixation special hinges are available.

Coating technique

Galvanised and polyester coated.

Colours

Black RAL 9005
