

REINFORCED WELDED MESH FOR CRITICAL INFRASTRUCTURE

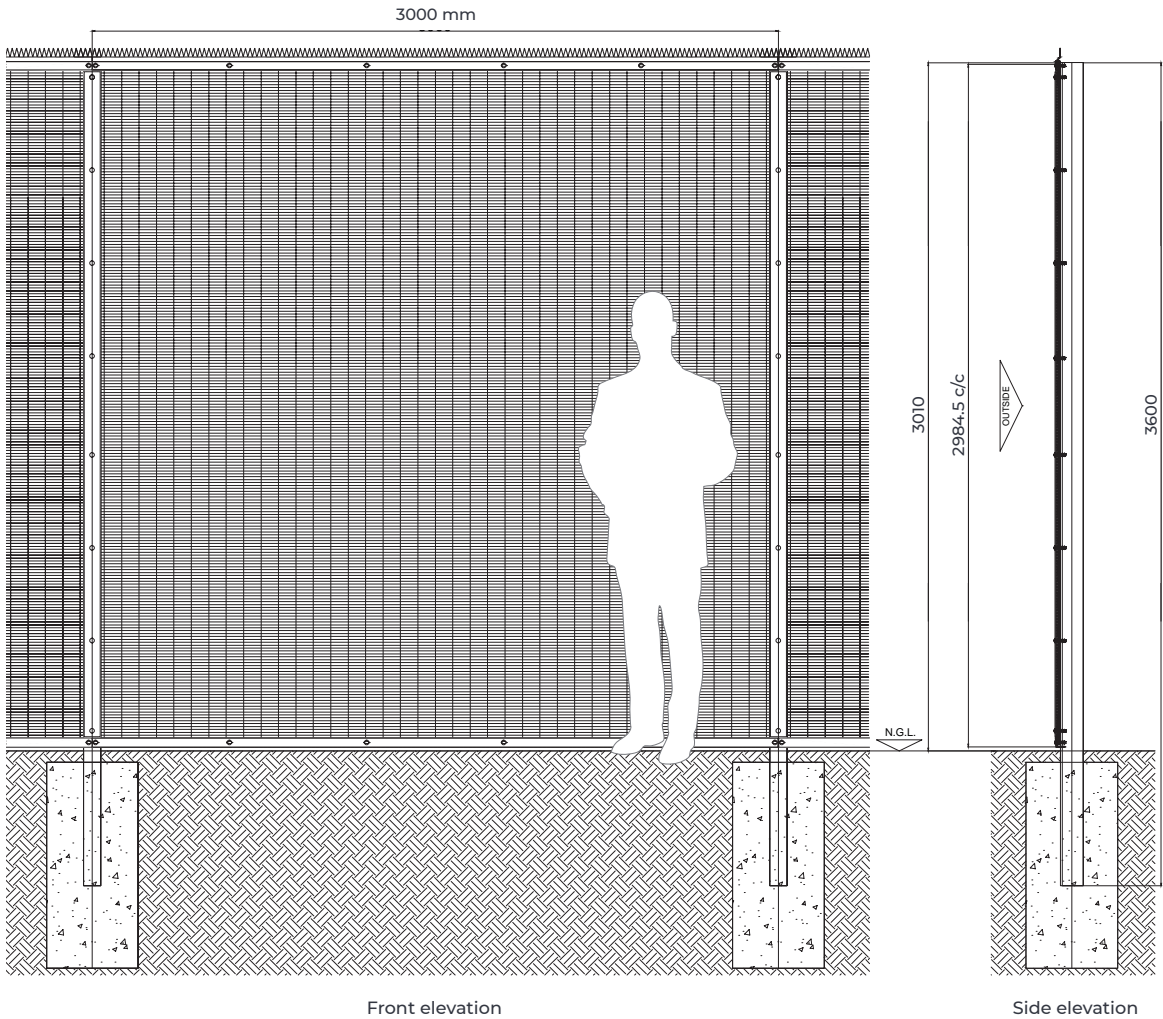

Tested and proven to provide increased forced entry resistance with an additional vertical wire that adds rigidity and heightened protection.

Securifor 358 Dublo has been tested to ASTM F2781 10 standards for forced entry and ballistic resistance. Certificates and reports available on request.

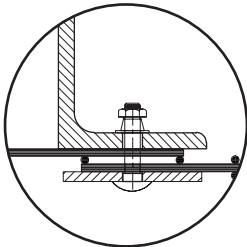

Securifor 358 Dublo features robust wire and weld joints, small mesh apertures, superior fixing mechanisms, and additional vertical wires that all contribute to its reliability as a high-security perimeter solution.

All our products are backed by a 10 year guarantee when installed by one of our certified installer partners.

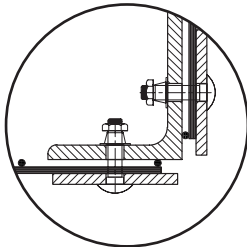

A range of sliding and swing gates is available.

SECURIFOR® 358 DUBLO

PRODUCT DESCRIPTION

Panels	A high density fence panel with 76.2mm x 1.7mm apertures made from 3.96mm wires. Secondary vertical wires on the reverse of the panel add additional security. The small apertures make the fence resistant to attack by traditional hand tools, while also maintaining a good level of visibility through the fence.
Angle iron post	3m posts: 70mm x 70mm x 6mm 3.6m post: 100mm x 75mm x 6mm Cover plate: 70mm x 6mm Made from a rolled sheet, then hot-dip galvanized and coated RAL 6005 Green or RAL 7021 Anthracite. Fixed using stainless steel cup square bolts (M8) and tamper-proof sheer-off nuts.

DIMENSIONS

Nominal fence height	2400mm	3000mm
Panels Width x height	3050mm x 2376mm	3050mm x 2985mm
Angle iron post	3000 x 70 x 70 x 6mm	3600 x 100 x 75 x 6mm
Angle iron bottom rail	2996mm x 40mm x 40mm x 3mm	2996mm x 40mm x 40mm x 3mm

OPTIONS

Surveillance	The panels feature excellent visibility when combined with surveillance systems.
Colors	RAL 6005 Green PVC RAL 7021 Anthracite PVC
Top Rail with Saw Tooth	3040mm (w) x 100mm (h) x 2.5mm (t). Helps to prevent climbing.
Electrics	6 strands of electric fence on top of panel or a separate electric fence is fitted.
Toppings	Flatwrap Razor or BTC razor coil
Underdig	Strips of high density mesh installed under the fence to prevent burrowing.

SUPERIOR COATING

ZincAlu Super	A superior ZincAlu anti-corrosion coating proven to last nearly three times longer than hot dipped galvanized wires.
PVC	An additional PVC coating for maximum corrosion resistance. Color options: Green RAL 6005 and Anthracite RAL 7021.
