

Bekafor® Classic

Panels

Bekafor Classic is a rigid panel fence system that protects house and garden in a classic way

Product detail

BENEFITS

High longevity

This system offers certified quality and lifetime, as the panels are made of galvanised steel wire, plastic coated afterwards with high adhesion.

Easy installation

The complete system of several panel heights and convenient posts, collars, accessories (floor plates, corner clips and wall fixators) and gates offer a solution for all situations. This system can even be installed on a wall or concrete floor.

Classic design

Blending into the garden, Bekafor Classic provides peace of mind combined with classic design. The high rigidity of this residential fence helps you to border your garden in a durable way and its design makes it very discreet. The panels have vertical bars at one side that can be placed at the top for a more protective fence. The panels can be completed with an infill to enhance privacy (Bekafor Collfort & Bekafor Screeno Line).

Security level

Applications

Functionalities

Panels

The panels have a width of 2000 mm and are available in a range of heights from 630 till 2030 mm. The panels have vertical barbs of 30 mm that can be placed at the top or at the bottom (place the barbs at the top for panel heights \geq 1530 mm)

The horizontal curves give the panels extra rigidity.

Mesh sizes are 100 x 50 mm

Wire diameter horizontal wires: 4,5 mm

Wire diameter vertical wires: 4 mm

Posts and fixation

Bekaclip posts

Bekafor Classic panels can be installed with metal Bekaclip posts, (diam. 48 mm). The panels can be easily fixed to the posts by making use of the special Bekafor collets.

In combination with Collfort slats, the posts have a diameter of 60 mm.

Izifix post system

Lateral fixing of the Bekafor Classic panels in the Izifix post, without accessories. Perfect fixing of the curves of the panel in the post profile. The Izifix posts (75 x 50 mm + slots every 100 mm) are covered with a plastic cap.

Not recommended in combination with Collfort or Screeno line infill.

Gates

Bekafor Classic fences can easily be combined with single and double Bekafor Classic gates & single Bekafor Essential gates.

Coating technique

Panels are made out of galvanised wires. A pre-treatment process guarantees a perfect PVC-coating adhesion to the product surface.

The posts are galvanised inside & out (min. coating 275g/m², both sides together), in accordance with Euro standard EN 10346. Afterwards an adhesion coating is applied and finally the posts are PES coated (min. 60 micron).

Options

Several accessories are available for:

- fixing a panel directly to a wall (wall fixators)
- installing posts on a concrete floor or wall (base plates)
- installing panels in an angle (corner clips)

Infills

Infills available to create privacy

- Collfort (wooden slats)
- Screeno Line (PVC slats)

Colours

Green RAL 6005 - Anthracite BF7016M
