

Prism 3-D

Engineered to secure school perimeters, to protect parkland and commercial real estate. This strong, low maintenance fence is an attractive, and affordable alternative to chain link.

Product detail

- Quick and efficient installation
- Betafence's exclusive Architectural Grade Powder Coat lasts up to 5 times longer than competitors' powder coatings
- 10 year warranty
- Attractive security fence solution

BENEFITS

The Industry Standard

The Prism 3-D Fence System offers you the protection of high security mesh, as part of an attractive security fence solution.

Rigidity

Durable welded wire mesh panels with rectangular meshes and horizontal reinforcement ribs, guaranteeing strength and rigidity.

Complete System

The system consists of high-quality panels available in various heights, secured to steel posts. Multiple gate options are available for the Prism 3-D Fence System.

Long Service Life

Betafence's exclusive super-durable powder coating guarantees a long service life for this fence system. This coating is applied over galvanization to ensure total protection of panels and gates.

Fast Installation

All components have been developed to provide a professional product of high quality that can be installed efficiently and rapidly.

Security level

Applications

Functionalities

Panels

The panels have a width of 8.2 feet and heights ranging from 4 to 8 feet. The panels have vertical bars of 1.2 inches on one side and are reversible (bars at top or at bottom). Mesh sizes are 2" x 6" for the beam sections. The heavy wires guarantee strength and rigidity.

Post

The panels are attached with high strength steel brackets to the front side of galvanized steel square tubular posts.

Gates

The Prism 3-D Fence System is compatible with swing, slide and cantilever gates.

Superior Coating

The welded mesh panels are manufactured using galvanized steel wire, coated with Betafence's exclusive Architectural Grade Powder Coat. This coating is super-durable and environmentally sound. Our powder coating provides the industry's highest weatherability and Gloss Retention in UV exposure – up to 5 times longer than competitors' powder coatings.

Brackets

Panels are attached with high-strength steel brackets to galvanized and powder coated square tubular steel posts. All brackets supplied with required mounting hardware. Additional bracket types available upon request.
