

HoriZen[®] Prime Composite System

Privacy solutions

Modern and environmentally friendly privacy fence that is easy to install and virtually maintenance free.

Product detail

Prime

FEATURES & BENEFITS

The natural look of wood with the advantages of plastic

WPC (Wood Plastic Composite) combines the warm feel of wood with low maintenance and rigidity of recycled plastic. HoriZen is weather resistant, extremely durable and does not rot or splinter. The new fine grain look is neat, modern, and easy to clean.

Complete Solution

Composite boards, stainless steel decorative boards, aluminum posts with their accessories, and the pre-assembled HoriZen single swing gate are all you need to install your privacy fence solution.

Easy installation

HoriZen components are specifically designed to make installation simple. The boards easily slide into the posts and a tongue & groove design ensures the boards neatly fit together. Fence heights can easily be adapted in 150 mm increments and the composite material can be cut to the desired width on site. See how easy it is to install, watch our installation video on our website.

Combine unique elements to design your own look

Be your own architect and landscape designer. HoriZen Prime consists of different modern elements you can use to create a fence as unique as you. Choose from different colors, decorative boards and even use your own materials.

Applications

Functionalities

HoriZen composite boards assortment

HoriZen Prime composite

- Extruded WPC boards, with tongue & groove principle
- Colors: anthracite & almond brown
- Board height x length: 150 x 1780 mm

Posts & fixings

HoriZen post

HoriZen Aluminum posts (70x70x2mm) are specifically designed to make installation easy and trouble free and to accommodate any installation requirement.

Available in 3 different lengths.

- for installation on footplate / low fence height (1925 mm)
- for installation in concrete (2400 mm)
- for installation in concrete + sloping (2980 mm)

Technical information

- WPC (Wood Plastic Composite) extruded boards made from materials containing 98% recycled content
- 100% recyclable
- 10 year guarantee (see our quality policy)
- Boards are easily cut on site to desired width
- Desired fence height is easily achieved in increments of 150mm and using shorter posts
- Extra long Aluminum posts (2980 mm) are available for installation on slopes

Decorative options

Choose from two decorative boards to personalize your design and allow for visibility through the fence:

Classic

Modern

- Stainless steel
- Dimensions 150 x 1780 mm
- Includes aluminum adapter profile (20x20x1800 mm)

HoriZen Gates

- The HoriZen fencing system can easily be combined with single and double HoriZen gates.

Design your own unique fence

By combining different colors, decorative boards and adapter profiles, you can create your own fence to complement your environment.
