

Guardian 5000

The Guardian Fence System®

The first system to provide a total security solution, with seamless security integration, easy installation, upgrade, repair, and maintenance.

Product detail

- Easy installation, upgrade, repair and maintenance
- Seamless security integration
- 10 year warranty
- Anti-ram barrier can be installed as a stand-alone solution

BENEFITS

Anti-cut & anti-climb

The Guardian Fence System® protects against both cutting and climbing, with heavy gauge mesh and small mesh openings that resist common cutting tools and hand or foot holds.

Engineered design

Steel rails within the Guardian Fence System® create a protective raceway for security component cabling such as intrusion detection, surveillance, and access control; providing a superior, fully-integrated security barrier.

Efficient installation

Panels are affixed to steel rails, which are attached to the steel posts. This smart fence platform configuration allows for fast installation and means that exact post spacings are not a requirement.

Anti-ram barrier add on available

M30, M40 and M50 Rated Anti-Ram Barriers can be integrated into the Guardian 5000 System to provide hostile vehicle mitigation along the perimeter fence line.

Security level

Applications

Functionalities

Panels

High strength security mesh panels create an effective anti-cut, anti-climb barrier. A variety of mesh options are available to meet specific risk or architectural requirements.

High-security guardian unions

Guardian Unions securely connect panels to high-strength horizontal rails within the Guardian Fence System® and is then secured with bolted steel straps adding additional rigidity to the fence.

Gates

Choose from a wide range of gate styles such as swing, v-track and cantilever gates. Crash-rated options are also available.

Coating

Guardian system panels and gates are standard with a superior galvanization, and are available with Betafence USA's exclusive Super-Durable powder coating. This coating provides longer protection from U.V. rays and salt spray than either E-Coat or standard polyester coatings.

Warranty

The Guardian Fence System® is backed by a 10-Year Manufacturer's Warranty.

Anti-ram barrier

The Anti-Ram barrier is a stand-alone solution, providing formidable resistance to vehicular attack.
