

## Palisade

## ARCHITECTURAL SECURITY BARRIER

### Product detail

- Flexible and fast installation
- Integration-ready raceways
- Covers a wide range of protection requirements
- Hostile vehicle mitigation options
- 15 Year warranty
- Superior anti-corrosion coatings

### BENEFITS

#### Deter and delay

The Palisade system presents an architecturally-pleasing security barrier designed to deter attacks and discourage scaling. The high-strength steel construction delays intrusion attempts by enough time for security response teams to deploy effectively.

#### Fast and flexible installation

Because of its unique rail support, Palisade is fast and easy to install, even on sloping surfaces. Depending on security requirements, rail and post spacing is fully customizable.

#### Seamless integration

This barrier solution can be integrated with Intrusion Detection and other electronic security components, protecting cabling through a raceway of steel rails within the framework of the Palisade Fence System.

#### Anti-ram barrier add on available

M30, M40 and M50 Rated Anti-Ram Barriers can be integrated into Palisade or installed as a stand-alone solution providing formidable resistance to vehicular attack.

### Security level

### Applications

### Functionalities

**Pinnacle Flat**

**Defender Splayed**

**Pinnacle Splayed**

### Panels

Panels feature strong and secure steel pales available in two designs depending on security and architectural requirements. Spacing of pales is flexible depending on visibility requirements. Standard heights are 7', 8' and 10', and custom heights can be accommodated.

### Posts and rails

Panels are installed on rails in front of the posts, allowing for a finished and seamless appearance. This configuration allows for fast installation – and means that exact post spacings are not a requirement. Posts are available in variable sizes.

### Gates

Choose from a wide range of gate styles including pedestrian and vehicular swing gates, as well as slide and cantilever gates.

### Superior Coating

Palisade panels and gates are manufactured with galvanized tubular steel, then protected by Betafence's exclusive Super-Durable powder coating. This coating provides longer protection from U.V. rays and salt spray than either E-Coat or standard polyester coatings.

### Surveillance friendly

Surveillance systems have unobstructed visibility of activity behind the fence.

### Warranty

Palisade is backed by a 15-Year Manufacturer's Warranty, giving you the peace of mind that the world's leading producer of fencing stands behind this product.

## Palisade Standard Configurations

Panel Height	Pales	Air Spacing	Rails	Posts
7', 8', 9', 10'	14 & 15 ga.	3-1/4" 1-1/2" (anti-climb)	2" TS x 14 ga.	3" TS x 12ga 4" TS x 11 ga.

Note: Specifications subject to change based on specific project requirements. Please contact us for a risk-based custom solution.
