

Bekasport Plus

Panels

The specific rebound panels of the Bekasport Plus system makes it ideal to fence and protect all types of sports and recreational facilities. This sports fence ball stop can be tailored to suit customers' requirements.

Product details

BENEFITS

Developed in conjunction with experts

Developed in consultation with the Sports Council and other sporting bodies, the Betafence system provides a robust and safe surround for 'all weather' surfaces and multi-games courts for all sports.

Safe

All large gaps and protrusions throughout the system have been eliminated to minimise risk of injury. The system provides excellent through visibility for supervision and policing of the facility.

Accessibility

Each specification is complemented by specially designed flush fitting single leaf gates for wheelchair access and double leaf gates for maintenance / emergency vehicle access.

Specific ball rebound section

The Bekasport Plus system uses Nylofor 2D Super Rebound panels that are fully welded and safely secured at each intersection, specifically designed to withstand heavy impacts.

Security Level

Medium

Applications

Functionalities

Post and fixing systems

Bekasport Post system

Panels are fixed to the rectangular Bekasport posts with a 2m U-channel shaped clamp bar. Above 2m fixing brackets are used to further secure the fence. This combination of clamp bar and fixing brackets provides added strength and security, as well as a smooth safe finish at the key impact area.

Panels

The panels are manufactured from heavy welded mesh, 2500mm wide. To minimise balls from leaving the area we offer a choice of four available heights (3m, 4m 5m or 6m).

The panels are extremely rigid and secure due to the double horizontal wires one positioned on either side of the verticals. This system is ideally suited to a games containment area, with provision for recessed goal areas and increased heights across goal ends or goal areas.

Rebound section up to 1.2m high 66.66 x 50mm, 200 x 50mm above 1.2m.

Gates

The Bekasport system can be supplied with matching gates which are available on request.

Create your own multi games area

In just a few easy steps, Betafence can help you design a bespoke multi-use-games area according to your budget and sporting requirements.

Coating Technique

High quality powder coating (galvanised + minimum 100 microns polyester + 100% adhesion) gives the system a very long lifespan and is guaranteed for 10 years.

Colours

Bekasport is available as standard in green RAL 6005. Black RAL 9005 and other colours are available on request.

ASSORTMENT BEKASPORT PLUS

Panels			Posts			
Fence height mm	Lower panel width x height mm	Upper panel width x height mm	Section mm	Overall length mm	U channel Clamp Bar mm	Number of fixings
